

B.S. FASTNERS

Serving Since
~1996

Served More Than 25cr + Bolts

About Us !

At **B.S. Fasteners**, we specialize in manufacturing high-quality bolts designed specifically for bicycle parts. With a deep understanding of the cycling industry, we focus on producing durable, precise, and rust-resistant fasteners that ensure smooth and safe rides.

B.S. Fasteners is a trusted name in the world of bolt manufacturing. While we began our journey producing high-precision bolts for bicycle parts, we've now expanded to manufacture all types of bolts for various industries—automotive, machinery, construction, and more.

Baljinder Singh

B.S. Fastners was founded by Mr. Baljinder Singh, a visionary entrepreneur with a deep-rooted passion for manufacturing excellence. With years of experience and dedication, he transformed a small setup into a growing enterprise known for producing high-quality bolts, especially for cycle parts. His strong values, eye for detail, and focus on customer satisfaction continue to drive the company forward.

Why Choose Us ?

- **Precision Engineering**
- **Cycle Parts Experts**
- **Versatile Production**
- **Consistent Quality**
- **On-Time Delivery**

Mission

To deliver reliable, high-quality fasteners that power progress across industries. We aim to be the trusted partner for precision bolts especially in cycle parts by combining innovation, efficiency, and customer-first service.

Vision

At B.S. Fasteners, our vision is to be recognized as a leading force in the global fastener industry by setting new benchmarks in quality, reliability, and innovation. We strive to become the preferred choice for clients across sectors—especially in cycle manufacturing—by continuously evolving our technology, expanding our product range, and maintaining uncompromised standards. Our goal is to contribute to India's industrial growth and make B.S. Fasteners a trusted name both nationally and internationally.
